1. **Mountain trips**
2. **Sea travel**
3. **City trips**
4. **How to save money**
5. **Beach vacations**
6. **Adventure travel**

A. These trips take place in a big city, for example, Moscow, New York, London, or Paris. The main point of these trips is usually to do some sightseeing. You can visit a few museums or do a boat or bus tour. These trips are great because there are so many different cultures and unique things to offer. It may be faster than some would like for a vacation, but the great thing about it is that there are always endless possibilities of things to do, see and taste.

B. This is what a lot of people consider a “real” vacation. It may be a way to escape from cold weather and to get some sun. You can sit in the shade with a cold drink in your hand. This type of holidays varies from the all-inclusive resort trip to the romantic getaway. But no matter what you are going to do there it requires sun, nice weather, and a change of pace from the daily routine.

C. For this, you need some type of outdoor activity. Camping, hiking and whitewater rafting all fall under this category. But you don't need to be terribly adventurous to enjoy the outdoors. Even those who like a warm comfortable bed and no dangerous activities can explore nature. State and national parks can be great destinations for all types of travellers.

D. There is a whole subculture of people who love living aboard a big passenger cruise liner. It's a huge part of the travel industry, and now you can take cruises all over the world. It's a great way to see a lot of new places, without much of the hassle of travelling from place to place. Some cruise liners are known as being 'party boats' for college kids. And others, like Disney Cruise Liners, are great for families. It's really a great way to get a taste of many different places.

E. Backpacking is really a form of budget travel (as opposed to luxury travel). Backpacking is also generally a longer-term type of travel than the typical vacation. Many backpackers are young, but that's not always true. They carry what they need with them and usually travel from place to place as cheaply as possible, sometimes booking overnight trains to save money on accommodations, or staying at hostels.
