Critical thinking. Work in teams

Children of most schools worldwide are required to wear a uniform. A school uniform is a dress code to help discipline the students and help them focus on their studies. A school uniform has a lot of advantages and disadvantages. What do you think about wearing a school uniform? Give and discuss your ideas.

Critical thinking

*** Have your Ss work in teams and do the task orally. The task is focused on developing critical thinking.

Explain the task to your Ss. They have to follow the instructions. Your Ss have to assign the roles. Three students have to make convincing arguments. One student has to make up a text. One student has to present the results. They have to share and discuss their ideas. The time is limited. You should monitor the activity and correct it if necessary.

Possible Answer

I think that a school uniform should not be compulsory. Firstly, all students have their own style. That is why, we should have the opportunity to express our individuality as a uniform restricts our freedom of expression. Besides, I find my uniform less comfortable than my regular clothes as I feel hot in it and it is difficult to wear it all day. Therefore, school uniforms destroy the easy and light atmosphere at school and make it more official as all students look the same. However, some people claim that a uniform is useful for school. If all students wear the same uniform every day, they will have boring and monotonous days in their school life. As for discipline, it might not be compulsory to wear only black, white or grey colors of clothes because colors do not influence discipline. In fact, every student feels pride for the school even without wearing special clothes.

Follow these instructions.

Make up 7–10 sentences.

Express your opinion.

Give 4 arguments for wearing or not wearing a school uniform.

Present your work in front of the class.

Use these phrases:

In my opinion

I suppose/I think

In conclusion
