

**Таблица 3. Атмосферное давление и среднее значение атмосферного давления на разных высотах**

| Номер измерения | Время, t, с | h = 0 м | h = 0,75 м | h = 1,80 м | h = 3,04 м |
|-----------------|-------------|---------|------------|------------|------------|
| 1               | 0,00        | 99148   | 99130      | 99115      | 99100      |
| 2               | 0,50        | 99148   | 99130      | 99115      | 99100      |
| 3               | 1,00        | 99148   | 99131      | 99113      | 99100      |
| 4               | 1,50        | 99149   | 99130      | 99111      | 99100      |
| 5               | 2,00        | 99150   | 99129      | 99109      | 99101      |
| 6               | 2,50        | 99152   | 99129      | 99110      | 99101      |
| 7               | 3,00        | 99153   | 99128      | 99112      | 99102      |
| 8               | 3,50        | 99153   | 99129      | 99113      | 99103      |
| 9               | 4,00        | 99153   | 99130      | 99113      | 99103      |
| 10              | 4,50        | 99152   | 99130      | 99112      | 99103      |
| 11              | 5,00        | 99151   | 99129      | 99111      | 99102      |
| 12              | 5,50        | 99151   | 99130      | 99110      | 99100      |
| 13              | 6,00        | 99150   | 99130      | 99109      | 99100      |
| 14              | 6,50        | 99149   | 99130      | 99108      | 99099      |
| 15              | 7,00        | 99149   | 99130      | 99108      | 99099      |
| 16              | 7,50        | 99149   | 99130      | 99109      | 99098      |
| 17              | 8,00        | 99150   | 99130      | 99110      | 99098      |
| 18              | 8,50        | 99150   | 99130      | 99111      | 99098      |
| 19              | 9,00        | 99150   | 99129      | 99113      | 99099      |
